Subject:- Electric Supply.

Dear Sirs,

I am directed to refer to your letter No. G.195, dated the 21st June 1949, on the above subject, and to state that on investigation it is found that neither you have placed any order for a new A.C.Set, nor the 100 kW. D.C. generating set ordered by you in the year 1946 has yet arrived at site. The supply position is not at all satisfactory and it appears that you are not taking the matter seriously. I am accordingly to request you that you should take immediate steps to order out additional sets of adequate capacity in order to enable you to carry out your obligations of giving continuous, sufficient and regular supply to the consumers, as required by the provisions of the Indian Electricity Act 1910, and the terms of your license; and that you should submit a monthly progress report in that connection to Government.

If you do not show any satisfactory progress within three months from the issue of this letter, Government will be constrained to consider the question of revocation of your license.

Yours faithfully,

Deputy Secretary to the Government of Bombay,
Public Works Department.

All our plants now are working satisfactorily.

We are negotiating with Messrs.Joseph and Co., Bombay, and with the Electric Supply Co., at Udaipur for the purchase of 200.KW.D.C. Diesel Electric plants. We hope to be able to complete the negotiations with one of them in a fortnight.

We shall let you know what progress we make with regard to the additional plant in our next. We are in earnest to purchase the plant. We request you therefore to execuse us for the delay.

The probable month when we would be in a position to put this Plant into commission will be June 1951.

We will keep you in touch with the developments as they occur.
